

# Just Sum

This might be one of the easiest problem. You just have to add two numbers and display the result.

## Input

Two numbers a and b will be the input of program where  $0 \leq a, b \leq 1000000$ .

## Output

Output will be the result of their addition.

## Example

**Input:**

1 2  
10 8484

**Output:**

3  
8494
